The WIB One-Stop Committee met on May 13, 2011 to discuss and compile the evaluations of the proposals submitted for the Request for Qualifications for Integrated Service Delivery for Next Generation WIA Adult and Dislocated Worker Services for Program Year 2011. The four agencies who submitted proposals in response to this RFQ were Boonslick Regional Planning Commission, Gamm, Inc., MERS/Missouri Goodwill Industries and North East Community Action Corporation.

Cyndi Johns explained the RFQ process. Clarice Hill asked if everyone would like to provide their general overall view of the proposals.

General questions that were asked regarded the following:

Performance information
Transition statements
General financial information appropriate
Disallowed costs
Functional Leader questions

After that, the evaluations of the committee members were totaled. Based on those evaluations, the Committee found that Boonslick Regional Planning Commission, Gamm, Inc. and MERS/Missouri Goodwill Industries met the qualifications of the Northeast WIB and recommended that they be advanced to the next step of the RFQ process.

The meeting adjourned at approximately 1:00 p.m.

Respectfully Submitted,

Sharon Hillard
